FINANCIAL MANAGEMENT :

Most of our children are from lowest income strata; families of whom are more concerned about earning two square meals. For these kids any education intervention requires lot of persuasion and efforts on our part. We have to arrange free transportation, uniform, books and teaching material, nutrition supplements and medical facilities wherever needed. We meet our expenses through Management funding (65%), donations received from individuals (25%), money earned by selling of vocational unit products (5%) and user fees (5%).

We envisage AKJ to grow and ensure economic independence of special children and community in need. Our future plans consist of:

- ★ To start Income-generation activities at our community development centre.
- ★ To serve more needed persons through CBR (Community Based Rehabilitation).
- ★ To have own space for expanding services.

YOU COULD MAKE A DIFFERENCE BY :

- ✓ Sponsoring children education (Rs. 6000/child/year).
- ✓ Contributing to nutrition / medical / transport fund.
- ✓ Sponsoring an event like Special Olympics/ annual day/ picnic/ any festival.
- ✓ Making donation as per your wish towards corpus fund or recurring expenditure.
- ✓ Buying or help selling Greeting Cards / products.
- ✓ Volunteering your skills, time, expertise etc.
